

KETTLE BREWED

The secret to Tradewinds' exceptional taste is in our kettle brewing process. We are devoted to delivering authentic iced tea to you, the customer. Unlike the corporate giant tea brands, we do not use high speed tea extraction processes or powdered teas and we'd never use preservatives. We brew our tea gentle and slow in small batches utilizing our proprietary kettle brewing process. By simply steeping tea bags in our kettles, we deliver a truly fresh tea taste. From hand selecting the finest tea leaves to brewing each batch with the utmost care and attention, we guarantee the best.

Packed 12 per case and each bottle is 20 ounces.

Enjoy!
